## Gwinnett Math Tutoring Individualized Rate Sheet

**We charge for tutoring sessions ONLY.** We do NOT have enrollment fees, testing fees, materials fees, rescheduling fees or late payment fees. We can do so because people have been good to work with, and we don't need to charge extra for our services or office expenses. This helps us to have competitive rates and services. Please do your part to help us and your student succeed.

Sessions last one hour and are paired with one student or private. Discounts apply for number of sessions per week and referrals. Your rate will NOT go up as long as you have students with us. Your rate applies to siblings as well. However, **siblings are billed as separate and sessions cannot be combined between each other.** Each sibling student is scheduled separately, and not in the same session.
